

plurality of individual conditions (block 110). Using the model checker, each of the plurality of individual conditions is interpreted as a specification language for system properties of the byte code program (block 112). Using the model checker, whether each of the plurality of individual conditions is fulfilled by the state transition system is verified (block 114). Then, the byte code program is automatically released for further processing when the state transition system fulfills all of the plurality of individual conditions (see block 116).--

REMARKS

Entry of this Amendment is respectfully requested. No new matter is added. The above-amended Specification corrects what appears to be a typographical error. Underlining indicates added text; strikeouts indicate deleted text.

If any fees are due in connection with this Amendment, the Commissioner is authorized to charge and/or credit the **Kenyon & Kenyon LLP Deposit Account No. 11-0600**.

A duplicate of this Transmittal is included for such purpose(s).

Sincerely,

KENYON & KENYON LLP

Dated: November 21, 2006
